(c) the total stake which is likely to be downloaded;

(d) whether it is also a fact that blue chip/profit making units are also being considered for such disinvestment; and

(e) if so, the reasons therefor?

THE MINISTER OF DISINVESTMENT (SHRI ARUN SHOURIE): (a) to (e) Disinvestment in Public Sector Undertakings (PSUs) is a continuous process. As a part of the process, Government keeps considering proposals for disinvestment in various PSUs including oil PSUs from time to time. As on date, Government has decided to disinvest 51 per cent of the equity of Engineers India Limited (EIL) through strategic sale and 10 per cent of the equity of EIL to the employees of EIL. The Government has also decided 'in principle' to disinvest a part of the equity held by it in Bharat Petroleum Corporation Limited (BPCL) and Hindustan Petroleum Corporation Limited (HPCL) through strategic sale.

The decision to disinvest in a particular Public Sector Undertaking is taken in terms of the declared disinvestment policy of the Government. According to it, in generality of the cases, Government will bring down its equity to 26 per cent or below in all non-strategic Central Public Sector Undertakings. The strategic public sector enterprises are those in the areas of arms and ammunitions and the allied items of defence equipments, etc.; atomic energy except in the areas relating to generation of nuclear power and applications of radiation, radio isotopes to agriculture, medicine in non-strategic industries and railway transport. This policy covers all Central Public Undertakings—whether they are making profits or losses.
